## DOWN IN A COAL MINE

An Explosion of Gas Takes Place.

HUNDREDS OF MEN IMPRISONED.

Some of Them Rescued Alive and Others Still in the Mine, but the Loss of Life Will Be Over a Handred - Pltiful Scenes as the Wives and Mothers Meet 'he Bodies of Their Dear Ones at the Mouth of the Shaft.

SOUTH MCALLISTER, I. T., Jan. 9 .-One of the most appalling mining disasters on record occurred at Krebs, a settlement about five miles from this place, Thursday afternoon, by which probably over a hundred people lost their lives. Just as the day shift were about to come to the surface from the mine operated by the Osage Coal Mining company, in shaft No. 1, a terrible explosion occurred. There were upwards of 400 men in the mine at the time, most of whom were near the entrance to the cage which was to bring them to the top. Those at the top heard the explosion and at ouce prepared for the work of rescue.

The news spread rapidly, and it was not many minntes before the entrance to the mine was surrounded by a wailing and almost panic-stricken mass of humanity, composed chiefly of women and children. The scene at the time baffles description. Miners from other sections came pouring into the settlement, offerlng what assistance they could in the way of rescue, but owing to the flimsy nature of the earth through which the shaft had been made, they were of little assistance.

Just before the explosion occurred the hoisting cage had arrived at the top with half a dozen men. As the last man stepped from the cage the explosion occurred, and the force of the concussion forced the cage nearly a hundred feet in the air. A second later a scorching flame shot upward driving the men back to a place of safety.

Many of the men, some say nearly half, employed in the mine, succeeded in effecting their escape by climbing up through the air shaft. One of the men who escaped in this way climbed fully 450 feet with a broken leg. Many of those who climbed to the top were badly burned, in some cases the flesh stripping from their hands as they grasped the ladder.

There were many sad scenes witnessed as the bodies of the dead were brought to the surface. Wives and children gathered around weeping and moaning, strong men turned away to hide the moisture that would gather in their eyes, in spite of their ntmost efforts to ing needle. keep it back.

It will be fully a week before the bodies of the entombed men can be reached and brought to the snrface. Work will be pushed as fast as possible, however, and every endeavor will be made to get at them.

It is impossible yet to give an estimate even of the number of lives lost, but it is generally believed that it will reach at least one hundred and very likely more. Many of the men who sncceeded in getting ont alive will die, owing to their severe injuries.

What cansed the explosion can not be stated, but it is supposed that some miner fired a blast without warning, a proceeding in direct violation of the rules of the mine.

Many of the bodies recovered are so charred and blackened that identification is impossible.

So far as can be learned the names of the dead thus far identified are: George Sundsay, Jr., George Lindsey, Jr., William Russell, Mike Jacono, Ted Blendon, John Steera, Joe Genessio, Steve Speera, Bennett Moss, Joe Corrant, Antonio Genessio, Tommy Cain, Joe Roccoco, John Quinn, Jlm Quinn, Mixe McShane, George Russell, Ted Kibble.

The names of the injured can not be ascertained with anything like accuracy, owing to their scattering among the vil-

lage houses.
There were about 400 at work in the mine, and of these 150 as near as can be ascertained escaped, the remainder being in the mlne at this writing." The rescuers encounter many serions

drawbacks in their work. Many tunnals are closed entirely and big loose boulders are balanced perilonsly on shelves of rock adjoining the air shaft and the main shaft, which a breath of air might almost hurl down upon the rescuers. Notwithstanding these dangers, the rescuers keep bravely at their work, and at 5 o'clock yesterday evening had recovered forty bodies. The rescuers work at both the air and the main shafts and bodies were rescued by both routes.

At the various places used as morgues there were about twenty unidentified bodies and fragments of bodies.

Not So Destructive.

SHAMOKIN, Pa., Jan. 9.—By the explosion of gas in No. 9 vein, at the Neilson shaft, yesterday morning, one mmer was instantly killed, another fatally in-jured and a boss miner and superintendpured and a boss miner and superintendent slightly hurt. The dead miner is Paul Grunzki, and Philip Desert is the man likely to die. Superintendent Steele is reverely burned about the hands and face, and Boss English is badly burned about the body.

Speaker Crisp is much better today, and if he continues to improve as he has in the past few days he will soon be out.

NO CHILIAN WAR RUMORS. Both Countries Seem Walting for the

Other to Say Something. Washington, Jan. 9.—There was a sudden cessation of Chilian war rumors the other day, in fact a cessation of any kind of rumors. The impression grows that the efforts of the British representa-

tives in Santiago, and of Sir Julian Pauncefote in Washington, as first intimated in these dispatches a few days ago, will be instrumental, were no other pacific influences at work, in bringing about an amicable understanding. But as has also been stated, there is as

yet no disavowal by Chili of Senor Matta's curt and irritating note of several weeks ago, nor has Senor Moutt conveyed in an official form any apology or explanation tending to allay the irritation caused by previous communications. These, however, it is confidently expected, will follow when the United States shall have indicated its views upon the answer of Chili to its demands already made. This answer has not yet been re-

ceived at the state department.

In the mountline no change has been made in the policy of the navy department on the matter of putting every-thing in readiness for whatever may

THREE DEAD AND THREE INJURED. Terrific Explosion on South Canal Street. Chicago.

CHICAGO, Jan. 9.—A terrific explosion occurred last night in the boiler room of the Warren Springer company's building on South Canal street. A number of employes were in the building at the time the explosion took place and so far three are known to have been killed ontright and three others so badly injured that their recovery is doubtful.

The names of the dead are: Edward Bush, white, laborer; Patrick Rogers, white, fireman; Arthur Hall, colored, fireman.

The injured are: James Higgins, fireman, terribly scalded; Henry Oswa! 1. laborer, internally injured, can not live; John Lee, colored, fireman, frightfully bruised, can not live.

The cause of the explosion is as yet unknown. The engineer says he left the engine room but a few moments before the explosi a occurred, and that the boilers were all right.

All the injured were taken to the hospital, where it was stated that two of the injured would undoubtedly die.

Wire in a Boy's Foot for Months.

UPPER SANDUSKY, O., Jan. 9.—While playing about the yard last May, Master Harry Williams, of this city, tramped on something that gave him great pain in his right foot. It was thought to have been penetrated by a nail or something of the kind, but nothing but an abrasion of the skin could be found by the attending physician. The wound did not heal, however, and up to this time the boy has been obliged to go about without a shoe on the injured about without a shoe on the injured foot, the pain being so constant. Recently a sore broke out on the instep of the right foot and last evening it broke. Instantly a piece of wire began to protrude. It was removed and by measurement proved to be two and a fourth inches in length and as thick as a darn-

INDIANAPOLIS, Jan. 6.—David Yates, who was a night fireman in the American Wheel company's works, filed a claim with the receiver of that company yesterday for \$204.60. STRIKING EVENTS.

Such Marks the Course of the New Year.

ESPECIALLY IN A BUSINESS WAY.

Important Decline in the Prices of Wheat and Cotton, the Latter Lower Than It Has Been for Over Forty Years. A Depression in the South While Business is Only Fair in Other Parts of the Country.

NEW YORK, Jan. 9.-R. G. Dun & Company's weekly review of trade says: The first week of the new year has been marked by some striking events. There has been an important decline in the prices of wheat and cotton which have been held of late a little too high for foreign estimates of value, so that exports were somewhat checked. The decline will bring out larger orders for

Cotton has dropped to the lowest price since early in 1849, viz.: 7.44 cents for middling uplands. Receipts at the south continue greater than last year, and though exports are also greater, the stock accumulated and largely carried by banks at various points has a depressing influence. This affects trade throughout the south, and at Memphis the outlook is considered poor and col-lections are very slow. At Nashville trade is only fair, though money is easier; at Little Rock trade is dull; at Galveston very conservative, with failnres much exceeding those of last year in number; at Savannah trade is quiet though money is easier, and at New Orleans banks are easier and a better feeling is seen in the money market, though unusual quantities of cotton, sugar and rice are being carried. The demand for sugar and rice is strong and active, with slightly better prices, but cotton is de-

clining, with heavy receipts.

Trade is fair in other parts of the conntry. Boston business is better in some lines, with considerable activity in dry goods, new goods being opened and selling freely. Boots and shoes improve slowly, marufacturers having fair employment, but being anxious for further orders, An improved demand is seen for rupber goods, but wool is quiet. At Hartford, wool, hardware and groceries are in fair demand, and dry goods dull. At Philadelphia liberal orders are noted for spring materials, and while trade in other branches is now very light, the prospect is considered good.

Raltinore reports a healthy woney

Baltimore reports a healthy money market, and Cincinnati activity in clothing and moderate trade in whiskies with a favorable start for the year. Cleveland trade is good for the season, and rolled iron in good demand. At Pittsburg the outlook seems better, pig iron is stronger and finished iron in good demand. Chicago reports some increase in receipts of barley, cared meats, cheese and cattle, receipts of oats nearly double last year's, of flonr, corn, rye and dressed beef fully double, and of wheat three times last year's. Dry goods sales are light, though payments are better; sales of clothing and shoes are larger than : year ago, and money is in fair demand with the supply ample for legitimate trade.

Milwaukec finds good indications for the spring cade, and heavy snow helps the lumber basiness. At St. Paul trade is quiet, as usual, with excellent prospects. At Minneapolis the car famine is over and the output of flour 172,000 barrels, against 114,000 last year, with lnmber sales of 1891 exceeding those of 1890 by 67,700,000 feet. At St. Louis cold weather canses better trade in heavy clothing and other trade is seasonable, the grain blockade having broken. Trade at Kansas City is quiet and money in light demand. Collections throughout the northwest are very fair, though slow at most sonthern points.

The great industries report no important change, though in iron a large business is being done, and the tone is improved. Some improvement seen in bar and plates, and fair business in structural iron. The coal trade is ragged, though the demand is beyond all precedent. Less demand is seen for copper, though large sales have occurred. Tin is weaker and lead dull.

The money market has been well supplied at this point and other markets throughout the north are easier.

The business failnres during the eight days since Dec. 31, number for the United States 393, and for Canada 42, or a total of 480, as compared with a total of 329 last week and 292 the week previous to the last. For the corresponding week of last year the figures were 403, representing 875 in the United States and 28 in Canada.

COTTON GROWERS CONVENE.

Hundreds at the Memphis Meeting. Variety of Crops Advocated. MEMPHIS, Jan. 9.—The big cotton

growers' convention is in session here. Governor Buchanan, the commissioners of agriculture from six states and 1,500 planters and cotton factors are present. Papers were read by Colonel S. R. Godwin, of Memphis, and Colonel Hector D. Sam, commissioner of agriculture of Alabama, showing that bankruptcy and ruin threatened the cotton states if the policy of raising exclusively cotton and buying meat and bread was pursued any longer. The convention seemed to be entirely in sympathy with the speakers. A committee on resolutions was appointed which will report later.

The organization was made permanent, to be known hereafter as the Cotton Growers Association of the South, with Ira G. Holloway, of Mississipp..., president, and a vice president from each of the cotton states.

By the Mexicans of the Rio Grande. Diaz's Shortcomings.

SAN ANTONIO, Tex., Jan. 9.—Garza. the would-be Mexican revolutionist, was a few years ago the editor of a Mexican paper in this city, where he is well known. Diaz now holds his position in defiance of the constitution, which limits the president to 'wo terms. Diaz has also proken his pledges upon which he made his campaign among the people.

Foolhardy as it may appear, he sol-emnly promised his constituents that in the event of his election, he would de-clare war and win back Texas to the Mexican republic. The ignorant classes do not comprehend the magnitude or danger of this performance, and claimor for him to perform his pledge. It is claimed by the revolutionists (and such they call themselves) that not only will Garza not be killed, but that before the business is ended, he will be joined by the army and the common people, and will march in triumph to the capital.

While the Texans have no love for the bold fellow, the public sentiment is in his favor, and the speedy downfall of President Diaz's illegal reign is pre-

Moving Toward Mexico.

SAN ANTONIO, Tex., Jan. 9.—The latest report received from the Rio Grande fron.ier indicate that numerous bands of revolutionists are moving toward Mexico, and that unless their march is interfered with in the next few

days by United States troops or Mexican military authorities, the majority of them will have reached Mexico.

They are all thought to have one objective point in Mexico, where they hope to meet and join forces, and Monterey is said to be the city mon which terey is said to be the city upon which the first combined assault is to be made. The Mexican government has been informed of this plan, and during the last two days there has been a general shifting of troops from the garrisons in the state of San Luis Potosi, and the lower part of the state of Nueva Leon to the Rio Grande frontier of the state of Tamaulipas.

MORE DESTRUCTION DONE.

Further Accounts of the Havoc Done by the Georgia Cyclone.

ROANOKE, Va., Jan. 9.—Additional details received concerning the cyclone in Randolph and Chambers counties Wednesday night are: Five miles from here the house of James Williams was blown down while a dance was in progress and three men were killed and four women badly hurt. Other occupants were slightly injured. The path of the storm was about one hundred yards wide. It swept down the Savannah and Western railroad track for two miles, racing with a passenger train which narrowly escaped destruction.

At Milltown nearly every store was blown down, together with the Baptist chnrch, college and many residences. Professor Gibson, of the college, was killed and twelve pupils hurt. No less than thirty pupils were more or less in-jured at Milltown. Five miles further on three negro cabins were taken up by the cyclone and carried about a half mile and three children were killed. The storm laid timber, houses and fences low in its path. It is not yet known the full extent of the damage done and the number of fatalities.

A Mexican's Revenge.

CITY OF MEXICO, Jan. 9.—Jesus Bruno Martinez, convicted of the innrder of an old jeweler of this city, was executed in the precincts of Belam prison Thursday. Just before undergoing the fatal sentence he was permitted to take leave of his friends and of the prison officials. While he was in the act of embracing, according to Mexican usage, the chief of the secret police who had been particularly active in bringing Martinez to jus-tice, the latter drew a knife from under his coat and stabbed the chief three times, although not fatally. He was overpowered and shot without further

Fly Wheel Bursts.

CINCINNATI, Jap. 9.—Thursday evening a thirteen-ton fly wheel in the Hall Safe and Lock company's plant burst. The bnilding was almost completely wrecked. One piece weighing a ton was thrown 200 feet and through the roof. Shortly before a 300 pound emery wheel had burst. This caused the engine to "run away." Only about fifty of the 800 employes were in the building at the time. Nobody was hurt.

Seems to Run in the Family.

New Brunswick, N. J., Jan. 9.—Wilton Hill, cashier of the Jamesburg National bank, who died here two weeks ago of the grip, is alleged to have been a defaulter to the sum of \$20,000. A peenliar mania for embezzlement seems to run in the Hill family. Wilton's brother, Charles Hill, while cashier of the National bank in this city, appropriated cash and securities aggregating over \$100,000 and then committed suicide. John T. Hill, another brother, stole \$400,000 from the Ninth National bank last year, but died before the disclosure.

The delegates claim that in order to subserve the Interests of good government in these citles, to hold the low class of colored people in subjection in many of them in which they now predominate, the Legislature ought to grant, if it can be done under the new Constitution, the option of providing by ordinance for the Congress pretty thoroughly cleaned out mode of selection of the chief officials of the cities.

#### Pawned a Five Dollar Bill.

A man who possessed a five dollar bill. and wanted to blow it in badly, hit upon a novel plan the other day by which to save and spend it both. The bill was given to him by a friend, and he wasdetermined not to part with it. After a lengthy debate with himself he evolved the brilliant scheme of pawning the note. He pald a visit to his uncle, raised \$4.69 on the bill, and spent it according to his tastee. When further funds came in he redeemed the original note.—Philadelphia Record.

Why Coffee Is Adulterated.

The main reason for the adulteration of coffee is that there is not enough of it to go around. Mocha now sells at the highest price ever known, which is about 25 cents a pound in large quantities for the green bean. Pure Juva sells for 23 cents a pound. These are very high prices and the snpply of the best grades is limited. The temptations to adulteration are now therefore at the highest.

Egypt's Dead Ruler Laid to ton Friday night. Rest.

THE NEW RULER PROCLAIMED.

The Sulian Says That the Oldest Son, Abbas, Shall Reign-All Honor and Respect Shown to the Dead Man-Various Other News from Abroad.

CAIRO, Jan. 9.—The body of the late khedive arrived at the Abdin palace, this city, from the palace at Helouan, at about 1 o'clock yesterday afternoon. The remains were preceded by the British and Egyptian officials of rank, and were followed by the officials of the khedive's household.

After the celebration of solemn and impressive religious rites at the Abdin palace, the body of the dead ruler of Egydt was taken, at 2:15 p. m., to Ffifl, where the kliedive recently built a handsome vault for the reception of his body

and those of his family after his death.

The route from the Abdin palace to Ffifi was lined with British and Egyptian troops, who presented arms as the body of the khedive was taken to its final resting place. The police, who were present in strong force, had considerable difficulty in keeping the crowds from pressing upon the troops, but the property decreases a decrease of the crowds from pressing upon the troops, but the property decreases a decrease of the crowds of the crowds from pressing upon the troops, but the property decreases a decrease of the crowds of the cr utmost decorum prevailed.

The streets were packed with people in all the costumes imaginable, forming the usual pleasant picture seen upon such occasions in towns about the southern shore of the Mediterranean.

The housetops were alive with people gathered to witness Tewfik Pasha's funeral, and emblems of mourning hing from the windows of rich and poor

Contrary to the general rule in such cases, the feeling of grief expressed by the people at the death of the khedive seems to be gennine beyond any doubt, and there is no denying that the foreign officials in Egypt are very sorry to lose the man who has proved such a docile ruler in able hands.

#### The Khedive's Successor.

CONSTANTINOPLE, Jan. 9 .- The sultan has formally appointed Abbas to the khedive in place of his father. This prompt action on the part of the porte gives much satisfaction to the British element here. Abbas has also received the congratulations of President Carnot on his accession to the throne. The sultan has signified his willingness that the existing Egyptian ministry should continue in authority until the arrival of Abbas.

#### British Trade in 1891.

LONDON, Jan. 9.—A review of British trade for the year 1891 shows a heavy increase in the imports of food and raw material. The heaviest proportionate deerease in exports affected metals and metallic goods. The new American tar-iff appears to have especially affected textile fabrics and worsted goods.

The Daily News says that foreign discredit and averse tariffs have diminished the foreign demand. Dearer bread and the diminished foreign demand for goods e against the trade for 1892

#### Young Irving Will Live.

London, Jan. 9.-A telegram from Belfast says that Lawrence Irving, the son of Henry Irving, the actor, who was wounded in the right breast and lung by a pistel bullet, at his hotel in that city, is progressing favorably. He is being anreed by his mother, Mrs. Henry Irving.

#### As It Should Be.

CALCUTTA, Jan. 9.—The sentences of the female convicts, who Nov. 2, rescued a number of convicts who were swept into the surf, clinging to an overturned wooden building, have been remitted or greatly lightened. The act was performed during the great cyclone.

#### ONLY A TRANCE.

An Invalid Lady Narrowly Escapes Being Embalmed Before Her Death.

CANTON, O., Jan. 9.-Mrs. Emmett Cable, wife of a prominent farmer, residing near Sparta, this county, was sick with dropsy for some time, growing worse day by day, finally sunk into a comatose state, and was so rigid and immovable that all thought she was dead. The body was stretched out and covered The body was stretched out and covered with a sheet, and an undertaker sent for. Before he arrived the watchers noticed a slight movement in the bed, and for an instant the supposed corpse sat upright, threw the sheet aside and quietly stroked back her hair. Her supposed death was only a sort of trance, and had it continued a little longer the poisonous embalming finid would have been introduced. duced.

#### EVENTFUL CAREER.

A Liquor Dealer Makes Things Lively for

a Couple of Days. Мемриів, Jan. 9.—Three days ago К. Sloane, a liquor dealer, set fire to his place of business and it was entirely destroyed. He was taken to the hospital in a fit of delirium tremens. Yesterday morning he was taken from the hospital to the jail a raving maniac. A few moments later he knocked his brains out by dashing his head against an iron bar.

Sloan's wife once got a divorce from him and they were remarried. She filed a second bill against him, but in the meantime he was shot and severely wounded by Len McBride, a notorious desperado. The woman withdrew the bill and nursed him back to life. Afterwards, however, she was granted

ROCHESTER. Ind., Jan. 9.—The store of Messrs. Vilo & Richter was entered by burglars early yesterday morning and a quantity of merchandise, including silks and plush wraps worth \$500, were stolen. A sack of silver, which had been placed in a sea canister, was also taken. The officers believe the crime was committed by local criminals.
